

Pesticides Commonly Used on Corn

A Fact Sheet from Toxic Free NC

Corn is an important crop across North Carolina.

A large number of pesticides are used on corn, which in North Carolina is grown throughout the state, both for human consumption and animal feed. Corn is an extremely chemical-intensive crop – conventionally-grown corn requires many applications of insect-killers, weed-killers, plant growth regulators and other types of pesticides. If you live near a corn-growing area, you may be exposed to these chemicals through drift or runoff. Some of these chemicals may be applied to corn fields from airplanes (called *aerial application*, also known as *crop dusting*), which can increase the chances of contaminating neighboring areas, such as homes or organic farms. Chemicals that may be applied aerially in North Carolina are followed by this symbol: ✦ You can find more information about these pesticides, including effects on human health and the environment, from the sources listed on the back side of this fact sheet.

Season	Chemical Name	Brand Names	Chemical Class	Uses	Information
Spring	Acetochlor	Acetochlor, Fultime, Topnotch, Keystone, Fieldmaster, Harness, Volley	Chloroacetamide	Herbicide	1, 3, 4
Spring	Atrazine	Aatrex, Atrazine, Axiom, Brawn, Cadence, Contour, Degree, Fultime, Fieldmaster, G-Max, Harness, Liberty, Lumax, Marksman, Medal, Rifle	Chloroacetamide	Herbicide ✦	2, 3, 4, 5, 6
Spring	S-Metolachlor	Bicep, Brawl, Brawn, Dual Magnum, Cinch, Expert, Lexar, Lumax, Medal II, Sequence	Chloroacetamide	Herbicide ✦	4
Spring	Mesotrione	Callisto, Lexar, Lumax	Chloroacetamide	Herbicide ✦	2, 4
Spring	Terbufos	Counter	Organophosphate	Insecticide ✦	1, 4, 7
Spring-Fall	2,4-D	2,4-D, Duo, Tenkoz 638 Herbicide, Unison, Weedone	Chlorophenoxy	Herbicide ✦	1, 2, 3, 4, 5, 7
Spring, Summer	Bifenthrin	Annex, Bifenthrin, Bifenture, Capture, Discipline, Empower2, Fanfare	Pyrethroid	Insecticide ✦	1, 4
Spring, Summer	Cyfluthrin	Baythroid, Renounce	Pyrethroid	Insecticide	1, 2, 4
Spring, Summer	Zeta-cypermethrin	Fury, Mustang	Pyrethroid	Insecticide ✦	1, 2, 3, 5
Spring, Summer	Esfenvalerate	Bonide Bug Buster, Asana	Pyrethroid	Insecticide ✦	1, 4
Spring, Summer	Chlorpyrifos	Lorsban, Eraser, Govern, Nufos, Pilot, Warhawk, Whirlwind	Organophosphate	Insecticide ✦	1, 2, 3, 4, 5, 6, 7
Spring, Summer	Nicosulfuron	Steadfast, Accent, Basis Gold, Clarion	Sulfonylurea	Herbicide ✦	4
Spring, Summer	Permethrin	Kickstart VP, Permethrin	Pyrethroid	Insecticide ✦	1, 2, 5
Spring, Summer	Imidacloprid	Dupont Avaunt	Pyrethroid	Insecticide ✦	1, 4
Spring, Summer	Spinosad	Bull's Eye, Tracer	Microbial	Insecticide ✦	1, 4
Summer	Bacillus thuringiensis (Bt)	Bt, Biobit, Deliver LC, Dipel, Javelin	Biological	Larvicide ✦	1, 2, 4, 5
Summer	Lambda-cyhalothrin	Karate, Lambda T, Silencer, Warrior	Pyrethroid	Insecticide ✦	1, 4, 5
Summer	Methomyl	Dupont Lannate	Carbamate	Insecticide ✦	1, 4, 7
Summer	Thiodicarb	Larvin	Carbamate	Insecticide ✦	1, 4

Where to find more information about pesticide hazards

The following are different sources of information about how pesticides may affect human health and the environment. Internet addresses and contact information are provided for all sources, however we can also provide you with free copies of most of this information. Call toll-free: 1-877-NO SPRAY or email info@PESTed.org to request copies.

1. Recognition and Management of Pesticide Poisoning (book) by Reigart & Roberts, 5th edition (1999), U.S. EPA. This is an excellent handbook **for health care providers**. Note that information about pesticides is grouped by chemical class, *not* by the pesticide name or active ingredient. Available free, in Spanish or English, from the US EPA by calling (703) 305-7666, or online at: <http://www.epa.gov/pesticides/safety/healthcare/handbook/handbook.htm>.
2. Pesticide Fact Sheets (articles) from NCAP, published in the *Journal of Pesticide Reform* (magazine). Available by calling (541) 344-5044 or online at: <http://www.pesticide.org/factsheets.html>. These are in-depth articles about pesticide active ingredients, and they cover environmental as well as health effects. Free on the web; \$4 to \$6 each if sent by mail.
3. Chemical Watch Fact Sheets (articles) from Beyond Pesticides. Available free by calling (202) 543-5450 or online at: <http://www.beyondpesticides.org/pesticides/factsheets/index.htm>. These are two- to three-page articles about pesticide active ingredients that cover both environmental and human health effects.
4. PAN Pesticides Database (website) from Pesticide Action Network. This is a searchable database that provides current toxicity and regulatory information for almost all pesticides. Search by product name or chemical name. Available only on the web: <http://www.pesticideinfo.org>. The PAN database also includes a Pesticide Poisoning Diagnostic Tool designed to help **healthcare providers** recognize, manage and report pesticide-related illnesses. It can help identify a pesticide or class of pesticides that may be responsible for a pesticide-related illness. This resource also provides information for reporting a known or suspected pesticide poisoning: http://www.pesticideinfo.org/Search_Poisoning.jsp.
5. NPIC Fact Sheets (website) from the National Pesticide Information Center (sponsored by Oregon State University and EPA). NPIC's Fact Sheets provide basic information for consumers about various pesticide products, which are listed by active ingredient on the website: <http://npic.orst.edu/npicfact.htm>. The fact sheets are written in simple language and are easy for most people to understand. NPIC also maintains a toll-free telephone service for pesticide information (1-800-858-7378), and lists emergency treatment information for humans and animals.
6. ToxFAQ's (website) from the US Centers for Disease Control's Agency for Toxic Substances and Disease Registry. These are short summaries of basic health information about many contaminants that are commonly found at hazardous waste sites, including some pesticides. These are written in simple language and are easy for most people to understand; many are also in Spanish. Only available on the website: <http://www.atsdr.cdc.gov/toxfaq.html>.
7. Right to Know Hazardous Substance Fact Sheets (website) from the New Jersey Department of Health. These are summaries of health information about many environmental contaminants, including some pesticides. They are designed for people who are exposed to these chemicals at work, and they are written in simple language and are easy for most people to understand. Available in English and in Spanish on the website: <http://www.state.nj.us/health/eoh/rtkweb/rtkhsfs.htm>

For free copies of many of these resources, contact Toxic Free NC toll-free at 1-877-NO SPRAY or by email: info@toxicfreenc.org.
